FOR IMMEDIATE RELEASE

PACIFIC COAST HIGHWAY REMAINS OPEN IN SLIDE AREA

Malibu – Two rockslides earlier today forced the closure of Pacific Coast Highway (PCH) just south of Topanga Canyon in the Malibu area.

California Department of Transportation (Caltrans) geologists and construction staff currently are monitoring slope movement to determine if more slides are imminent. The northbound lanes will remain closed until further notice. Temporary concrete barrier (K-rail) is being placed in the median to route all traffic to the southbound lanes, which will allow one lane of traffic in each direction.

Motorists are advised to use extreme caution and to expect delays.
